

Lattice Semiconductor Wins 2021 SEAL Business Sustainability Award

December 21, 2021

HILLSBORO, Ore.--(BUSINESS WIRE)--Dec. 21, 2021-- [Lattice Semiconductor Corporation](#) (NASDAQ: LSCC), the low power programmable leader, today announced that it has been named a [2021 SEAL Sustainability Award](#) winner for its leadership, transparency, and commitment to sustainable business practices. The Lattice Nexus™ FPGA platform was recognized in the Sustainable Product Category for its leadership power efficiency and small size that enable efficient, long-lasting application designs for the Communications, Computing, Industrial, Automotive, and Consumer markets.

"At Lattice, we're committed to enabling our customers to innovate and achieve their design goals with our differentiated, low power solutions," said Jim Anderson, President and Chief Executive Officer at Lattice. "We are honored to receive this recognition for our sustainability contributions with the Lattice Nexus platform and our continued commitment to sustainability across all parts of our business."

"Winning our sustainability award requires meaningful impact metrics that 'move the needle.' Our judging panel found the step-change reduction in energy consumption and waste enabled by Lattice's Nexus Platform to be worthy of celebration," commented Matt Harney, Founder of SEAL Awards.

The SEAL Sustainable Product Award honors innovative and impactful products that are "purpose-built" for a sustainable future, judged by a panel of ten sustainability and ESG experts.

About Lattice Semiconductor

Lattice Semiconductor (NASDAQ: LSCC) is the low power programmable leader. We solve customer problems across the network, from the Edge to the Cloud, in the growing Communications, Computing, Industrial, Automotive, and Consumer markets.
