

## Lattice Named Best-in-Show Award Winner at Embedded World 2022

June 21, 2022

HILLSBORO, Ore.--(BUSINESS WIRE)--Jun. 21, 2022-- [Lattice Semiconductor](#) (NASDAQ: LSCC), the low power programmable leader, today announced that the company won the prestigious [Best-in-Show award](#) at the embedded world 2022 exhibition and conference. The Lattice CertusPro™-NX FPGA family was recognized for its leadership power efficiency, performance, and small form factor in the Processor & IP category by Embedded Computing Design magazine.

"With CertusPro-NX FPGAs, we delivered capabilities that were previously unavailable in low power FPGAs to support edge application design needs across multiple markets," said Gordon Hands, Senior Director of Product Marketing, Lattice Semiconductor. "We are proud to be recognized for these advancements as a testament to our commitment to delivering innovative programmable solutions that help our customers future-proof their embedded systems designs."

"Our awards are based on a rigorous points system whereby products are scored on attributes such as design excellence, performance, and market impact. Lattice CertusPro-NX FPGAs scored well across the board to earn our 'Best in Show' award," said Rich Nass, Executive Vice President, Embedded Computing Design at Open Systems Media.

CertusPro-NX continues Lattice's commitment to FPGA innovation with leadership power efficiency, the highest bandwidth in the smallest form factor in comparison to similar devices, and are the only FPGAs in their class with support for LPDDR4 external memory. With advanced performance capabilities and the highest logic density currently available on a Lattice Nexus™-based device, CertusPro-NX FPGAs are designed to accelerate application development for the Communications, Compute, Industrial, Automotive, and Consumer markets.

### About Lattice Semiconductor

Lattice Semiconductor (NASDAQ: LSCC) is the low power programmable leader. We solve customer problems across the network, from the Edge to the Cloud, in the growing Communications, Computing, Industrial, Automotive, and Consumer markets. Our technology, long-standing relationships, and commitment to world-class support let our customers quickly and easily unleash their innovation to create a smart, secure, and connected world.
