

Lattice Announces Transfer of Select Discontinued Devices to Arrow Electronics, Inc.

September 18, 2013

Customers of Discontinued Products Have Well Supported Supply Chain

HILLSBORO, OR -- (Marketwired) -- 09/18/13 -- Lattice Semiconductor Corporation (NASDAQ: LSCC) today announced the transfer of all remaining finished goods inventory for select discontinued devices to Arrow Electronics, Inc. The transferred devices are those formally discontinued by Lattice [PCN#09-10](#) dated June 7, 2010 and [PCN#13-10](#) dated September 7, 2010 covering GAL®, ispGAL™, ispLSI®, ispGDX®, ispPAC®, and other programmable logic families.

"With the transfer of these discontinued products to Arrow Electronics, Lattice customers now have a new supply channel that can support ongoing needs for these programmable devices," said Tyler Moore, Director of Supply Assurance at Arrow Electronics, Inc. "Arrow Electronics looks forward to supporting the delivery of these critical components for many years to come."

"Arrow Electronics has a strong history of providing support for discontinued products," said Lou McKellar, Sr. Director, Business Operations at Lattice Semiconductor. "By entering into this agreement with Arrow, Lattice is confident in its ability to maintain commitments to support long-term customers."

Contact Arrow Electronics, Inc.

Customers who want information regarding product availability, lead- times, pricing or order placement should contact their local Arrow representative or send an inquiry to supplyassurance@arrow.com.

About Lattice Semiconductor

Lattice is a service-driven developer of innovative low cost, low power programmable design solutions.
