South Hall 2 – Booth No. MP25977

3150 Paradise Rd
Las Vegas, NV 89109

Product demonstrations include:

- **Consumer** – Learn firsthand what's driving the demand for Lattice's solutions and experience our pASSP bridging solutions for VR, mobile and wearables, which leverage our low power, small form factor and cost optimized FPGAs. Swing by to also enjoy a unique, interactive VR experience and get a hands-on look at the newest advancements that are making VR more immersive and exciting than ever.
- **Industrial & Automotive** – Come see the innovations made possible by Lattice's low cost, low power mobile-influenced technology solutions optimized for applications such as ADAS, infotainment, industrial IoT, HMI, machine vision, video surveillance and more. We'll have on display our latest automotive, embedded vision and connectivity demos featuring a variety of products including ECP5™, CrossLink™, MachXO3™, HDMI® ASSPs and WirelessHD® device.
- **Communications** – Check out our single-chip CMOS beam-steering 60 GHz RF transceivers based on our SiBEAM® technology and learn how these transceivers address the growing demand for high capacity wireless links in urban LTE and wireless broadband networks and other point-to-point link applications.
