PROXY STATEMENT FOR ANNUAL MEETING OF STOCKHOLDERS

INFORMATION CONCERNING SOLICITATION AND VOTING

General

Our board of directors is soliciting proxies to be used at the 2003 annual meeting of stockholders to be held at our Corporate Headquarters, 5555 NE Moore Court, Hillsboro, Oregon, 97124-6421 on Tuesday, May 6, 2003, at 1:00 p.m., Pacific Time, or at any adjournment thereof.

This proxy statement, the accompanying proxy card and our Annual Report were mailed on or about April 3, 2003, to all stockholders entitled to vote at the meeting.

Who Can Vote

Record holders of common stock at the close of business on March 13, 2003, may vote at the meeting. On March 13, 2003, 112,476,208 shares of common stock were outstanding. Each stockholder has one vote for each share of common stock owned as of the record date. The common stock does not have cumulative voting rights.

How To Vote

Stockholders may vote their shares in person by attending the annual meeting. Stockholders may also vote by mail by signing, dating and mailing the enclosed proxy card. The proxy holders will vote your shares in accordance with the instructions on your proxy card. Stockholders who hold their shares through a bank or broker should vote their shares in the manner prescribed by their brokers. If you do not specify how to vote your shares on your proxy card, we will vote them (i) for each of the nominees for director named herein, (ii) for ratification of PricewaterhouseCoopers LLP as our independent accountant for fiscal 2003 and (iii) in accordance with the recommendations of our board of directors on any other business that may properly come before the meeting.

Revoking Your Proxy

You may revoke your proxy at any time before it is exercised by:

- sending a written notice of revocation to the Secretary of Lattice;
- submitting a properly signed proxy with a later date; or
- voting in person at the meeting.

Quorum; Abstentions; Broker Non-Votes

A majority of the shares of common stock issued and outstanding on March 13, 2003, present in person at the meeting or represented at the meeting by proxy, will constitute a quorum. Shares that are voted "FOR", "AGAINST", "ABSTAIN" or "WITHHELD" from a proposal are treated as being present at the meeting for purposes of establishing a quorum.

The total number of votes that could be cast at the meeting is the number of votes actually cast plus the number of abstentions. Abstentions are counted as "shares present" at the meeting for purposes of determining whether a quorum exists and have the effect of a vote "against" any matter as to which they are specified. Proxies submitted by brokers that do not indicate a vote for some or all of the proposals because they do not have discretionary voting authority and have not received instructions as to how to vote on those proposals (so-called "broker non-votes") are not considered "shares present" and will not affect the outcome of the vote.

PROPOSAL 1: ELECTION OF DIRECTORS

Our board of directors is divided into three classes. Directors are elected to serve staggered three-year terms, such that the term of one class of directors expires each year. Classes consist of two or three directors. Three Class II directors will be elected at the meeting for three-year terms ending in 2006. We will vote your shares as you specify when providing your proxy. If you do not specify how you want your shares voted when you provide your proxy, we will vote them for the election of the nominees listed below. If unforeseen circumstances (such as death or disability) make it necessary for the board of directors to substitute another person for the nominee, we will vote your shares for that other person.

The following table briefly describes the nominees for director and the directors whose terms will continue. Except as otherwise noted, each has held his or her principal occupation for at least five years. There are no family relationships among any of our directors or officers.

THE BOARD OF DIRECTORS RECOMMENDS THAT THE STOCKHOLDERS VOTE "FOR" THE ELECTION OF DANIEL S. HAUER, SOO BOON KOH, AND STEVEN A. LAUB AS THE CLASS II DIRECTORS OF THE COMPANY.

Board Meetings and Committees

In 2002, the board of directors held four regularly scheduled meetings and one special meeting. Each director attended or participated in more than 75% of the aggregate of (i) the total number of meetings of the board of directors and (ii) the total number of meetings held by all committees of the Board on which such director served except Mr. Sonsini, who attended 40% of such meetings.

Our board of directors currently has three standing committees: the audit committee, the compensation committee and the nominating/governance committee.

Audit Committee

The audit committee oversees the accounting and financial reporting process of the company and is primarily responsible for reviewing and approving the scope of the audit and other services performed by our independent accountant and for reviewing, evaluating, and monitoring our accounting principles and systems of internal accounting controls. In this capacity, the audit committee is responsible for appointing, compensating, and overseeing the work of the independent accountant. In addition, the audit committee evaluates and confirms the independence of the independent accountant and reviews and approves, in advance, all work performed by the independent accountant. The audit committee meets with management and our independent accountant, who has access to the audit committee without the presence of management representatives.

During 2002, the audit committee was composed of Mr. Hatfield, Mr. Merlo and Ms. Koh and met twice. Our board of directors has determined that, based upon his prior work experience and his tenure and experience on the company's audit committee, Mr. Merlo qualifies as an "Audit Committee Financial Expert" as this term has been defined under the recently published SEC rules.

Compensation Committee

The compensation committee reviews and approves the salary of the chief executive officer, bonus compensation paid to executive officers, employee stock option grants and other compensation issues. During 2002, the compensation committee was composed of Mr. Hatfield and Mr. Hauer and met once.

Nominating/Governance Committee

A nominating/governance committee was established in 2003, comprised of Mr. Merlo, Mr. Hatfield, Mr. Hauer and Ms. Koh. The nominating/governance committee has not met. The nominating/governance committee has assumed the responsibilities of the nominating committee, which was dissolved in 2002. It is anticipated that this committee will identify persons for future nomination for election to the board of directors and will establish policies affecting corporate governance. Stockholders who wish to submit names of candidates for our board of directors to the nominating/governance committee for consideration should do so in writing addressed to the nominating/governance committee, c/o Secretary, Lattice Semiconductor Corporation, 5555 NE Moore Court, Hillsboro, Oregon 97124-6421. Nominating procedures are set forth in our bylaws. We will provide a copy of our bylaws to you upon written request.

Director's Compensation

Directors who are also our employees (currently Mr. Tsui and Mr. Laub) receive no additional or special compensation for serving as directors. Each non-employee director receives an annual retainer of \$20,000 plus \$1,500 for each board meeting and \$1,000 for each committee meeting they attend.

Non-employee directors also receive options to purchase shares of our common stock. Director options were issued in 2002 under our 2001 Outside Directors' Stock Option Plan (the "2001 Plan"), which provides for automatic grants of stock options to non-employee directors. Under the 2001 Plan, new non-employee directors receive an option grant of 72,000 shares upon initial appointment to the board.

These shares generally vest quarterly over a four-year period and expire ten years from the grant date. In addition, each non-employee director receives a subsequent option grant of 18,000 shares per year. These shares generally vest quarterly over a one year period beginning three years after the grant date and expire ten years from the grant date. In 2002, each non-employee director received a grant of 18,000 shares.

Legal Services

Mr. Sonsini, one of our directors, is a member of Wilson Sonsini Goodrich & Rosati, Professional Corporation, a law firm based in Palo Alto, California, and chairman of the firm's Executive Management Committee. This firm serves as our primary outside legal counsel. We believe that the services rendered to us by Wilson Sonsini Goodrich and Rosati were on terms no less favorable to us than could have been obtained from unaffiliated third parties.

Employment Agreements

In September 1988, we entered into an employment letter with Mr. Tsui pursuant to which Mr. Tsui serves as Chief Executive Officer. In addition to providing for an annual base salary and bonus arrangements, the letter provides that in the event of a change in control of Lattice, any unvested options to purchase our common stock held by Mr. Tsui shall become fully vested. Additionally, in the event Mr. Tsui is involuntarily terminated, other than for cause, we must continue to pay his salary for up to six months, or until Mr. Tsui begins employment elsewhere, whichever occurs sooner, and options vesting during that period are exercisable.

Audit and Related Fees

The following table sets forth the aggregate fees billed by PricewaterhouseCoopers LLP for the following services during 2002:

Audit Fees (1)	\$	310,075
Financial information system design and implementation fees (2)	\$	0
All other fees (3)	\$	158,100
Total fees	\$	468,175

- (1) Represents the aggregate fees billed for professional services rendered for the audit of our 2002 annual financial statements and for the review of the financial statements included in our quarterly reports during such period.
- (2) Represents the aggregate fees billed for operating or supervising the operation of our information system, managing our local area network and/or designing or implementing a hardware or software system that aggregates data or generates information significant to the generation of our financial statements.
- (3) Represents the aggregate fees billed in 2002 for services related to income taxes, registration statements, and foreign and statutory audits and filings.

The Audit Committee has determined that the provision of services rendered above for all other fees is compatible with maintaining PricewaterhouseCoopers LLP's independence.

Audit Committee Report

The audit committee of the board of directors is composed of three directors, each of whom is an independent director as defined by Rule 4200(a)(14) of the National Association of Securities Dealers' listing standards. The board of directors has adopted a written Audit Committee Charter, a copy of which is attached as Exhibit A.

The responsibilities of the audit committee are fully described in our Audit Committee Charter. Management is responsible for maintaining our financial controls and preparing our financial reports. Our independent accountant is responsible for performing an independent audit of our consolidated financial statements in accordance with generally accepted auditing standards and for issuing an audit report. The audit committee's responsibility is to execute the audit committee charter and oversee these processes. In fulfilling our responsibilities, the audit committee has reviewed and discussed the audited financial statements contained in our 2002 Annual Report with management and our independent accountant.

The audit committee discussed with our independent accountant matters required to be discussed by the Statement on Auditing Standards No. 61, "Communication with Audit Committees". In addition, the audit committee discussed with our independent accountant its independence from Lattice and our management, including the written disclosures and the letter submitted to the audit committee by our independent accountant as required by the Independent Standards Board Standard No. 1, "Independence Discussions with Audit Committees".

Based upon our discussions with management and our independent accountant and our review of the representations of management and the report of our independent accountant, we recommended that the board of directors include the audited consolidated financial statements in our Annual Report on Form 10-K for the year ended December 28, 2002 for filing with the Securities and Exchange Commission.

Compensation Committee Interlocks and Insider Participation

The members of our compensation committee during 2002 were Mr. Hatfield and Mr. Hauer. Neither Mr. Hatfield nor Mr. Hauer was or is one of our officers or employees. None of our executive officers serves as a member of the board of directors or compensation committee of any entity that has one or more executive officers serving as a member of our board of directors or compensation committee.

Report of the Compensation Committee

The compensation committee, comprised of non-employee directors, sets, reviews and administers our executive compensation program. The role of the compensation committee is to establish and approve the salary of our Chief Executive Officer and the incentive compensation paid to our executive officers. The committee also administers our employee stock option plans, and reviews and approves stock option grants to all our employees.

Compensation Philosophy. Our compensation philosophy is that cash incentive compensation of executive officers should be directly linked to our short-term performance while longer-term incentives, such as stock options, should be aligned with the objective of enhancing stockholder value over the long term. We believe the use of stock options strongly links the interests of our officers and employees to the interests of our stockholders. In addition, we believe that our total compensation packages must be competitive with other companies in our industry to ensure that we can continue to attract, retain and motivate the senior managers who we believe are critical to our long-term success.

Components of Executive Compensation. The principal components of executive compensation are base salary, the Executive Incentive Plan and stock options.

Base salaries are set based on competitive factors and the historic salary structure for various levels of responsibility within Lattice. The compensation committee periodically conducts surveys of companies in

our industry in order to determine whether our executive base salaries are in a competitive range. Generally, salaries are set at the middle to high end of this range. In addition, we rely on variable incentive compensation in order to emphasize the importance of short term performance.

Our Executive Incentive Plan is a bonus plan linked directly to our profitability. This plan in particular emphasizes our belief that, when we are successful, our executives should be highly compensated, but that, conversely, if we are unsuccessful and not profitable, no bonuses should be paid absent extraordinary circumstances. The total bonus pool determined under the plan is based directly on our operating profit, excluding charges associated with amortization of intangible assets. With respect to our Chief Executive Officer, an individual bonus is determined by formula based on the total bonus pool and his base salary. The bonus derived from such formula is paid to the Chief Executive Officer in a combination of stock and cash, pursuant to our 1996 Stock Incentive Plan. With respect to other executives, individual cash bonuses are determined by formula based on the total bonus pool, individual base salary and individual performance relative to key objectives as determined by the Chief Executive Officer. No bonuses were paid under the Executive Incentive Plan in 2002.

The principal equity component of executive compensation is our employee stock option program. Stock options are generally granted when an executive joins us and on an annual basis thereafter under a replenishment program. Initial stock option grants vest over a period of four years. The purpose of the annual replenishment program is to ensure that our executives always have options that vest in increments over a subsequent four-year period. Stock options are also occasionally granted for promotions or other special achievements. Stock options provide a means of retention and motivation for our executives and also align their interests with long-term stock price appreciation. In addition, executives are eligible to participate in a payroll deduction employee stock purchase plan. Under this plan, available to all domestic employees, company stock may be purchased at 85% of the fair market value at the beginning or end of a six month offering period, whichever is less (up to a maximum of \$25,000 worth of stock per calendar year or 10% of salary, whichever is less).

Executives also participate in our profit sharing plan. Under this plan, a specified percentage of operating profit, excluding charges associated with amortization of intangible assets, is set aside and distributed among all domestic employees based on tenure. For 2002, no distributions were made under our profit sharing plan. Other elements of executive compensation include participation in a company-wide life insurance program, supplemental life insurance, long-term disability insurance, company-wide medical benefits and the ability to defer compensation pursuant to both a company-wide 401(k) plan and an executive deferred compensation plan. We made discretionary contributions to the company-wide 401(k) plan of up to 5% of participating employee's eligible base pay until July of 2001, at which time these discretionary contributions were suspended.

Other Compensation Considerations. The compensation committee has studied Section 162(m) of the Internal Revenue Code and related regulations of the Internal Revenue Service, which restrict the deductibility of executive compensation paid to any of our five most highly-paid executive officers at the end of any fiscal year to the extent that such compensation exceeds \$1 million in any year and does not qualify for an exemption under the statute or related regulations. We have qualified our 1996 Stock Incentive Plan and our 2001 Stock Plan as performance based plans and therefore compensation realized in connection with exercises of options and payment of certain performance bonuses granted under these plans is exempt under the Internal Revenue Code. To maintain flexibility in compensating executive officers in a manner designed to promote varying corporate goals, the compensation committee has not adopted a policy that all compensation must be tax deductible.

COMPARISON OF TOTAL CUMULATIVE STOCKHOLDER RETURN

The following graph shows the five-year comparison of cumulative stockholder return on our common stock, the S&P 500 Index, the S&P Mid Cap Semiconductor Index, and the Philadelphia Semiconductor Sector (SOX) from March 1997 through December 2002. The S&P Mid Cap Semiconductor Index is being replaced because we believe that it no longer represents our peer group. Cumulative stockholder return assumes \$100 invested at the beginning of the period in our common stock, the S&P 500, the S&P Mid Cap Semiconductor Index, and the Philadelphia Semiconductor Index (SOX). Historical stock price performance is not necessarily indicative of future stock price performance.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires our officers and directors, and persons who own more than 10% of a registered class of our equity securities, to file reports of

11

ownership on Form 3 and changes in ownership on Form 4 or Form 5 with the Securities and Exchange Commission. Such officers, directors and 10% stockholders are also required by SEC rules to furnish us with copies of all forms they file pursuant to Section 16(a).

Based solely on our review of the copies of such forms received by us, or written representations from certain reporting persons, we believe that, for 2002, all Section 16(a) filing requirements applicable to our officers, directors and 10% stockholders were complied with, with one exception. Stephen M. Donovan, Corporate VP, Sales, inadvertently failed to file one report on Form 4 relating to the sale in January 2002 of 5,000 shares by the appropriate Form 4 filing date. The Form 4 was filed in February 2003.
