LATTICE SEMICONDUCTOR REPORTS FIRST QUARTER 2023 RESULTS

- Record quarterly revenue with growth of 22% compared to Q1 2022 and 5% compared to Q4 2022
- Gross Margin expands to 69.8% / 70.3% for Q1 2023 on a GAAP / Non-GAAP basis, compared to 66.9% / 67.7%, respectively, for Q1 2022
- Net Income improves to \$0.40 / \$0.51 per diluted share for Q1 2023 on a GAAP / Non-GAAP basis, compared to \$0.26 / \$0.37, respectively, for Q1 2022

** GAAP represents U.S. Generally Accepted Accounting Principles. Non-GAAP represents GAAP excluding the impact of certain activities which the Company's management excludes in analyzing the Company's operating results and in understanding trends in the Company's earnings. Additional information relating to these measures is included below in "Non-GAAP Financial Measures." For a reconciliation of GAAP to non-GAAP results, see accompanying tables "Reconciliation of U.S. GAAP to Non-GAAP Financial Measures."*

HILLSBORO, OR - May 1, 2023 - Lattice Semiconductor Corporation (NASDAQ: LSCC), the low power programmable leader, announced financial results today for the fiscal first quarter ended April 1, 2023.

Jim Anderson, president and CEO, said, "Our strong growth and customer momentum continued into the first quarter of 2023 with a 22% year-over-year increase in revenue. We drove 55% year-over-year growth in net income on a GAAP basis and 36% on a non-GAAP basis. While we're not immune to macro-economic challenges impacting the industry, we have Lattice-specific growth drivers, which position us well for long-term growth in our core markets."

Sherri Luther, CFO, said, "Q1 2023 represented our twelfth consecutive quarter of sequential growth, with revenue increasing 5% compared to Q4 2022. We achieved record operating profit of 32% on a GAAP basis and 41% on a non-GAAP basis, and expanded gross margin by 290 basis points on a GAAP basis and 260 basis points on a non-GAAP basis compared to Q1 2022. We also completed the tenth consecutive quarter of our share repurchase program."

First Quarter 2023 Highlights

- **Record Revenue:** Revenue increased 22% in Q1 2023 compared to Q1 2022 and 5% compared to Q4 2022, which represented the twelfth consecutive quarter of sequential growth.
- **Profit Growth:** Gross margin expanded 290 basis points on a GAAP basis and 260 basis points on a non-GAAP basis compared to Q1 2022, with net income per diluted share increasing 54% on a GAAP basis and 38% on a non-GAAP basis compared to Q4 2022.
- **Continued Portfolio Expansion:** Lattice introduced the MachXO5T™-NX family of advanced system control FPGAs. Based on the Lattice Nexus™ platform, this device family brings Lattice's long-standing leadership in control FPGAs to a broader set of control function designs and applications for enterprise networking, machine vision, and industrial IoT.
- **New Software Solutions:** Lattice launched the latest versions of its Lattice Automate™ and Lattice sensAI™ solution stacks, which equip customers with new factory automation and industrial machine vision capabilities. Lattice also expanded its Lattice ORAN™ solution stack to accelerate current and next-gen secure telecommunications applications deployments.
- **Lattice Receives Multiple Industry Awards:**
 - Named "Top FPGA Company 2023" by Semiconductor Review magazine.
 - Won two Artificial Intelligence Excellence Awards from The Business Intelligence Group.
 - Won a Grand Trophy Award for overall commitment to security-focused innovation from the Globec Cybersecurity Awards.
- **2023 Analyst and Investor Day:** Registration is now live for Lattice Semiconductor's 2023 Analyst and Investor Day, which will be held on Monday, May 15, 2023.

Business Outlook - Second Quarter of 2023:

- Revenue for the second quarter of 2023 is expected to be between \$183 million and \$193 million.
- Gross margin percentage for the second quarter of 2023 is expected to be 70% plus or minus 1% on a non-GAAP basis.
- Total operating expenses for the second quarter of 2023 are expected to be between \$56 million and \$58 million on a non-GAAP basis.

Non-GAAP Financial Measures: In addition to financial measures prepared in accordance with generally accepted accounting principles (GAAP), this earnings release makes reference to non-GAAP financial measures. With respect to the outlook for the second quarter of 2023, certain items that affect GAAP measurement of financial measures for gross margin percentage and total operating expenses are not accessible on a forward-looking basis because such items cannot be reasonably predicted without unreasonable efforts due to the unpredictability of the amounts and timing of events affecting the items we exclude from non-GAAP measures, including certain large and/or unpredictable charges such as stock-based compensation expense; litigation expense outside the ordinary course of business; and restructuring charges. Consequently, the Company is unable to provide a reasonable estimate of GAAP measurement for non-GAAP gross margin percentage or non-GAAP total operating expenses for second quarter guidance or a corresponding reconciliation to GAAP for the quarter. From a qualitative perspective, the differences between our GAAP measurement of financial measures for gross margin percentage and total operating expenses and our non-GAAP measure of those items will consist of items similar to those described in the financial tables later in this release for such items historically, including, for example and without limitation, certain large and/or unpredictable charges such as stock-based compensation expense; litigation expense outside the ordinary course of business; and restructuring charges. Additional information regarding the reasons the Company uses non-GAAP measures, a reconciliation of these measures to the most directly comparable GAAP measures, and other information relating to these measures are included below, following the GAAP financial information.

Investor Conference Call / Webcast Details:

Lattice Semiconductor will review the Company's financial results for the fiscal first quarter 2023, and business outlook on Monday, May 1 at 5:00 p.m. Eastern Time. The dial-in number for the live audio call is 1-877-407-3982 or 1-201-493-6780 with conference identification number 13737376. A live webcast of the conference call will also be available on the investor relations section of www.latticesemi.com. The Company's financial guidance will be limited to the comments on its public quarterly earnings call and the public business outlook statements contained in this press release.

Forward-Looking Statements Notice:

The foregoing paragraphs contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, that involve estimates, assumptions, risks and uncertainties. Any statements about our expectations, beliefs, plans, objectives, assumptions or future events or performance are not historical facts and may be forward-looking. Such forward-looking statements include, but are not limited to, statements relating to our long-term growth in core markets; market position in a broader set of control function designs and applications for enterprise networking, machine vision, and industrial IoT; acceleration in secure telecommunications applications deployments; and the statements under the heading "Business Outlook - Second Quarter of 2023." Other forward-looking statements may be indicated by words such as "will," "could," "should," "would," "may," "expect," "plan," "project," "anticipate," "intend," "forecast," "future," "believe," "estimate," "predict," "propose," "potential," "continue" or the negative of these terms or other comparable terminology.

Estimates of future revenue are inherently uncertain due to such factors such as global economic conditions which may affect customer demand, pricing and inflationary pressures, competitive actions, and international trade disputes and sanctions. In addition, the ongoing COVID-19 pandemic continues to impact the overall economy and, as a result of the foregoing, may negatively impact our operating results for future periods. Actual gross margin percentage and operating expenses could vary from the estimates on the basis of, among other things, changes in revenue levels, changes in product pricing and mix, changes in wafer, assembly, test and other costs, variations in manufacturing yields, the failure to sustain operational improvements, and the actual amount of compensation charges due to stock price changes. Actual results may differ materially from our expectations and are subject to risks and uncertainties that relate more broadly to our overall business, including those described in Item 1A in Lattice's most recent Annual Report on Form 10-K and as may be supplemented from time-to-time in Lattice's other filings with the Securities and Exchange Commission, all of which are expressly incorporated herein by reference.

Further economic and market disruptions from COVID-19, may increase or change the severity of our other risks reported in Item 1A in Lattice's most recent Annual Report on Form 10-K. Lattice believes these and other risks and uncertainties could cause actual results to differ materially from the forward-looking statements. New risk factors emerge from time to time and it is not possible for Lattice's management to predict all risk factors. You should not unduly rely on forward-looking statements because actual results could differ materially from those expressed in any forward-looking statements. In addition, any forward-looking statement applies only as of the date on which it is made. The Company does not intend to update or revise any forward-looking statements, whether as a result of events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

Non-GAAP Financial Measures:

Included within this press release and the accompanying tables and notes are certain non-GAAP financial measures that supplement the Company's consolidated financial information prepared in accordance with U.S. GAAP, including non-GAAP gross margin, gross margin percentage, R&D expense, SG&A expense, operating expenses, income from operations, other (expense) income, net, income tax expense, net income, net income per share – basic, and net income per share – diluted. The non-GAAP measures presented exclude charges and adjustments primarily related to stock-based compensation and related payroll tax effects, litigation expense outside the ordinary course of business, amortization of acquired intangible assets, restructuring plans and other charges, and the estimated tax effect of these items, change in tax law and other tax adjustments. These charges and adjustments are a result of periodic or non-core operating activities of the Company. The Company describes these non-GAAP financial measures and reconciles them to the most directly comparable GAAP measures in the tables and notes attached to this press release.

The Company's management believes that these non-GAAP financial measures provide an additional and useful way of viewing aspects of our performance that, when viewed in conjunction with our GAAP results, provide a more comprehensive understanding of the various factors and trends affecting our ongoing financial performance and operating results than GAAP measures alone. Management also uses these non-GAAP measures for strategic and business decision-making, internal budgeting, forecasting, and resource allocation processes and believes that investors should have access to similar data. These non-GAAP measures are included solely for informational and comparative purposes and are not meant as a substitute for GAAP and should be considered together with the consolidated financial information located in the tables attached to this press release.
